Paragraph #165 Session #9 (2010)

Full Text

The Permanent Forum recommends that States: ensure that the collection of statistical data be disaggregated by sex and ethnicity; discourage monitoring that is focused only on national averages; ensure indigenous peoples' and indigenous women's effective participation in all stages of the preparation, coordination and implementation of data collection; develop a proper system of indicators in partnership with indigenous peoples and women; and enable a measurement of progress in the different areas.
