Addressee: SPFII, ILO, OHCHR

Paragraph #108 Session #3 (2004)

Full Text

The Forum, recognizing the need for complementarity and coordination of indigenous training and education within the United Nations system, recommends that training and education partners within the United Nations system, in particular the ILO, the Office and other relevant agencies, hold discussions in order to develop a coordinated approach and a common electronic gateway to all education and training opportunities for indigenous peoples within the international system. As the United Nations body for coordination regarding indigenous issues, the Forum will construct the web site of the Forum available for such a gateway.

Comments

The Forum's website is fully constructed and updated frequently. It highlights the work of the Forum, as well as all relevant trainings, events, and workshops organized by the Secretariat and the Forum in response to its recommendations and priorities.

Area of Work

Education
