# **Addressee: Convention on Biological Diversity**

**Paragraph #107 Session #9 (2010)**

## **Full Text**

The Permanent Forum congratulates the secretariat of the Convention on Biological Diversity for considering the important role of indigenous peoples in its activities related to the International Year of Biodiversity in 2010 and recommends that it fund and organize a workshop on indigenous peoples and biological diversity as part of its celebration of the Year.

## **Comments**

SCBD reports (2011): The support of the UNPFII including partnerships on matters of mutual interest is highly appreciated by the SCBD. The international year was so successful the General Assembly has decided on a Decade for Biodiversity to highlight its importance and to draw attention to the newly established 2020 Targets. A report of the Decade for Biological Diversity will be provided to the next session of the UNPFII.
