**Paragraph #47 Session #17 (2018)**

### **Full Text**

The Forum recommends the creation of a global, legally binding regime for toxic industrial chemicals and hazardous pesticides, the vast majority of which are currently unregulated under existing conventions, to protect the rights of everyone, including indigenous peoples, from the grave threats to human rights presented by the ongoing chemical intensification of the global economy. Such a regime should have strong accountability and compliance mechanisms and be in conformity with international human rights standards, including the United Nations Declaration on the Rights of Indigenous Peoples.
