Paragraph #27 Session #7 (2008)

Full Text

The Permanent Forum calls on all United Nations agencies and States to support the reclamation of traditional practices and laws leading to global solutions to climate change.

Comments

The Government of Mexico reports:4. To encourage the participation and activities of civil society organizations, the Forum on Gender and Sustainable Development in Mexico was held. At the Forum;a network of agencies was proposed to work jointly on rural, indigenous, urban and natural issues and thereby to promote the exchange of experience and proposals between the social sector and the government sector; 5. One of the priority research areas for CDI is traditional knowledge, natural resources and the environment; hence it supported in 2008 the study “Climate change and indigenous peoples: documentation and analysis of the problem”, in order to examine the topic on the national and international levels and to document strategies for adaptation and mitigation. In 2009, a study is planned on community strategies and traditional practices used by indigenous peoples to adapt to and mitigate the effects of climate change.

DESA reports: 33. The discussions during the two-year cycle of the sixteenth and seventeenth sessions of the Commission on Sustainable Development (which will end on 15 May 2009) have already been shaped by the strength of indigenous peoples' views and inputs. The summary of the Chairman of the sixteenth session includes explicit references to indigenous peoples in 20 separate paragraphs¹⁵ that address issues important to current and past recommendations of the Permanent Forum, including: the need for access to land and secure land tenure, especially for women; the importance of local and traditional knowledge in agriculture, integrated water resources management, drought and desertification adaptation and mitigation; the need to support capacity-building for local communities and indigenous peoples according to the Bali Strategic Plan; and promotion of small-scale traditional agriculture and sustainable livestock production. The Chairman also stated that implementation of the United Nations Declaration on the Rights of Indigenous Peoples would further efforts to achieve sustainable development goals.

The Government of Colombia reports on two projects under the Clean Development Mechanism that have to do with indigenous communities. The report of Colombia also highlights the role of indigenous territories (resguardos) and national parks in mitigating climate change by preserving forests. This is especially the case in the Amazon Region and the Sierra Nevada de Santa Marta. The report also mentions seven projects on climate change adaptation that address indigenous peoples and their livelihoods.

UNDP reports on a traditional livelihood strengthening programme it is implemented in West Papua, together with the ILO.
