Paragraph #73 Session #16 (2017)

Full Text

Many indigenous peoples described situations where their human rights were being impacted by large-scale infrastructure projects, natural resource extraction and industrial agriculture activities in their territories without their free, prior and informed consent. The Permanent Forum received information to that effect from the Shuar, Sapara, Maasai and Ogaden peoples, among others. The Forum is concerned, in particular, by cases where it appears that the interests of investors are better protected than the rights of indigenous peoples. It reiterates that States and the private sector must respect the human rights of indigenous peoples by ensuring the effective implementation of the United Nations Declaration on the Rights of Indigenous Peoples and the Guiding Principles on Business and Human Rights.
