Addressee: UN System, Member States, Special Rapporteur on the implications for human rights of the environmentally sound management and disposal of hazardous substances and wastes

Paragraph #46 Session #16 (2017)

Full Text

On the basis of the Permanent Forum's continued concern about the impact of environmental toxins and the export and import of banned pesticides on the reproductive health of indigenous women and girls, the Forum reaffirms its call, contained in its report on its thirteenth session, for a legal review of the United Nations chemical conventions, in particular the Rotterdam Convention, to ensure that they are in conformity with international human rights standards, including the United Nations Declaration on the Rights of Indigenous Peoples and the Convention on the Rights of Persons with Disabilities (E/2014/43-E/C.19/2014/11, para. 16; see also E/C.19/2014/8, para. 62). The Forum recommends that the Convention on the Rights of the Child, in particular article 24, and its recognition of environmental health as a right protected under the Convention also be considered in the legal review. The Forum invites the Special Rapporteur on the implications for human rights of the environmentally sound management and disposal of hazardous substances and wastes to carry out a review within his mandated area of expertise and to present his conclusions to the Forum at its

seventeenth session.
