Paragraph #20 Session #4 (2005)

Full Text

Governments, the United Nations system and other intergovernmental organizations should, within the context of the 2005 Millennium Development Goals review and beyond, develop disaggregated data and information on indigenous peoples, in partnership with indigenous peoples. This should include a budget analysis to determine the amount of resources allotted to indigenous peoples. The Forum recommends to the Economic Commission for Latin America and the Caribbean that it continue to and strengthen its efforts regarding the production, elaboration and use of relevant information from population censuses, household surveys and other adequate sources, jointly with indigenous peoples, aiming at improving socio-economic conditions and active participation of indigenous peoples in the development process throughout the Latin American and the Caribbean region

Comments

The Government of Switzerland reports the following in its report (E/C.19/2006/4/Add.1) to the fifth session: This paragraph refers to good practices and Switzerland supports this recommendation

Area of Work
