Addressee: Member states

Paragraph #39 Session #20 (2021)

Full Text

The Permanent Forum reiterates its call to Member States to redouble their efforts to ensure disaggregated data collection on indigenous peoples (in accordance with target 17.10) and to include complementary indicators on indigenous peoples in voluntary national reports submitted by Governments for meetings of the high-level political forum on sustainable development. Data disaggregated by ethnicity will help Governments to make informed decisions in a culturally appropriate way in response to the specific needs of indigenous peoples. The Forum underlines the importance of applying a human rights-based approach to data collection, including on ethnicity.
