Addressee: Inter-Agency Support Group on Indigenous Issues, UNDP, UNFPA, UNOP Advisory Board

Paragraph #30 Session #14 (2015)

Full Text

Recognizing that the Inter-Agency Support Group on Indigenous Issues will play a central role in coordinating efforts among United Nations agencies to translate the outcome document of the World Conference on Indigenous Peoples into meaningful change, the Permanent Forum requests that the Group ensure that its membership includes all United Nations agencies, funds and programmes, including specialized agencies. The Forum recommends that the United Nations Development Programme, the United Nations Population Fund and the Advisory Board of the United Nations Office for Partnerships and other relevant United Nations agencies take the measures necessary for addressing the special situation of indigenous peoples in developed countries.

Area of Work

Economic and Social Development
